Annex Zb-9-1 | 医学分析报告：2023 年 Amager 精神病院羞辱性强制注射与群体强奸事件

第一节：事件背景与基本情况

2023 年 6 月，我在阿玛精神病医院（Amager Psykiatriske Hospital）被非法关押期间，经历了长达约 20 天的强制注射与群体性羞辱。在一般情况下，我只是坐在大厅，没有任何反抗举动。然而，我注意到，越来越多医护人员聚集到现场，最终大约有 30 至 40 人到齐，男女皆有，其中包括非当班人员。直到人全部到位，5 至 7 名女护士突然扑向我，将我强行按倒在地，随后在众目睽睽下强行脱下我的裤子和内裤，进行注射。

这类场景每天重复 3 次，由不同班次轮流执行，持续约 20 天。我被当成展示品一样，在全体“病人”和医护人员面前遭受性羞辱与身体控制。这种有组织、有预谋、重复性的暴力行为，完全超出了任何医学治疗的正当边界，在我看来，本质上构成了国家机构参与的“群体强奸”。

Section 1: Background and Basic Facts

In June 2023, I was detained at Amager Psychiatric Hospital in Copenhagen, Denmark. Without being informed of any court ruling and without undergoing any legitimate hearing procedure, I was forcibly injected with psychiatric drugs. During the entire process, I was subjected to extremely degrading collective violence: every day, five to seven female medical staff forcibly pulled down my pants and underwear and administered the injection in a public hall, with male staff present and observing. There were approximately thirty to forty people in the area.

When I tried to resist, I was physically restrained by multiple people. My body and dignity were severely violated. During the incident, the jade bracelet I had worn—given to me by my mother when I turned eighteen—was broken and has not been returned. The act of forced injection not only violated my body but also stripped me of my fundamental human dignity. I explicitly state that the nature of this behavior constitutes **group sexual assault**.
